

“Twenty five years ago, I was the jury foreman for the Michael Morton murder trial...

I was the jury foreman in the Michael Morton wrongful murder case. Because I was misled by the District Attorney, I and my peers sent an innocent man to prison for 25 years. Later, I called John Bradley and questioned him about the evidence. **John Bradley told me that Michael Morton was “desperate and grasping at straws” and that I should “not worry about it.”**

Well, I am worried about it and you should be too. For years John Bradley said “no” to justice for Michael Morton. In the Republican Primary election, join me and **say “no” to John Bradley.**

The Michael Morton Story

In 1987, an innocent husband and father was sent to prison while a monster roamed our streets. Michael Morton sat in prison for 25 years because the evidence proving his innocence was withheld by John Bradley's close friend and predecessor in the District Attorney's office. John Bradley prolonged Michael Morton's suffering for six years by personally blocking the DNA tests that proved Mr. Morton's innocence in order to cover up for his political ally's misdeeds. It's time to end John Bradley's corruption of justice.
